

Dyslexia is Here to Stay: Advanced Workshop on Reading Disorders; Part 2

Presenter: Maggie Kjer, PhD
Pearson Senior Clinical Assessment Consultant
Maggie.kjer@pearson.com

Date: Friday April 27th, 2018
GASP Spring Conference

Description:

This session will cover advanced topics in Dyslexia and Reading Disorders, as a continuation of Part 1 of this workshop series. The presenter will provide a very brief overview of reading disorders and dyslexia from Part 1 of this workshop series. Best practices in assessing reading disorders and selection of reading interventions will be presented. Throughout the session, there will be multiple discussion points for participant participation.

Learning Objectives:

- 1). Participants will be able to list subtests that measure reading related skills associated in the literature to dyslexia and other reading disorders.
- 2). Participants will be able to identify relevant reading interventions based on assessment results, observation, and other data sources within an MTSS model.

.
